- Education Communication
- Density Reduction
- Touch Point Reduction
- Athlete Self Reliance
- Hygiene Emphasis

Density Reduction

- The event capacity has been reduced and the length of day has increased to allow 2m of space for all participants on site (including 2m between each Transition racking).
- As with all current social protocols, we ask you to observe 2m social distancing at all

Reducing contact with event staff

- Event packs are pre prepared 1 week prior to the event and will only be picked up by the racer.
- All participants to arrive event ready prior to entering the event site.
- Participants must plan to be self sufficient with hydration and fuelling on route. See Nutrition page for more details.

- Please note, you will not be able to purchase spectator tickets on the day.
- Once you have arrived and entered the event village there will be two separate ‘journeys’ for participants and spectators when you exit the Holding Area and head to Registration.
- Spectators will still be able to see you in Transition, cheer you on at the swim start or on the run, cycle routes and finish line. You will also be able to meet up again in the event village once you have completed your event.

COVID-19 AND SOCIAL DISTANCING

Hygiene Emphasis

• Additional cleansing teams will be on site and touch point areas will be sanitised regularly (transition, racking, toilets etc).

• Hand sanitisation stations will be located throughout the site.

• Increased number of toilets spaced out on site.

• No changing facilities will be available, please come event ready.

Health Check Form

- All participants will be required to complete an online Health Check 14 days prior to the event, log into your Active Account and sign the Health Check Waiver

Personal Protection Equipment

- Staff & volunteers may be required to wear masks when 2m social distancing is not possible. Please note, this is a British Triathlon Federation sanctioned event. We are working closely with the BTF and following all guidance provided in addition to further advice from the Government and Public Health England.

To protect yourself and others

- Please make sure you follow the current government guidance, including;
- Wash hands - keep washing or sanitising your hands regularly.
- Cover face - wear a face covering over your nose and mouth in enclosed spaces.
- Make space - stay 2 metres away from other participants and event staff.
- If you are feeling unwell, get a test and do not leave home for at least 10 days.
- Is it not an event requirement for participants or supporters to wear PPE. However we ask that you bring your own PPE in case you find it necessary to wear some. Eg. In one of the Venues Cafés

RULES

BRITISH TRIATHLON

KNOW THE RULES

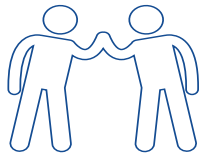
All the below are taken from the British Triathlon Competition Rules, available to download from the British Triathlon website.

RULE 2.1 Littering

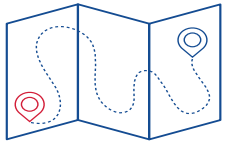
All litter must be placed in bins or elsewhere specified by the Event Organiser – keep hold of it until you can dispose properly.

RULE 2.1 Racing Conduct

Everyone involved in your race is there to ensure you have a safe and enjoyable experience, so we ask that you respect your fellow competitors and treat all Technical Officials, Event Organisers, volunteers and spectators with courtesy. Any abuse towards these people will not be tolerated.



RULE 2.1 Know the Course



Make sure you know which route to take – check out course maps and if it's unclear, ask the Event Organiser before race day. Marshals are there to ensure the safety of the event, not just to point you in the right direction!

RULE 2.9 Race Numbers

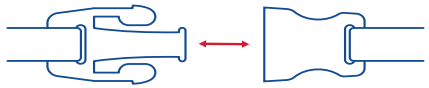
During the cycle stage, race numbers must be visible from the back; during the run stage, race numbers must be visible from the front. Race numbers do not need to be worn during the swim segment. Take care not to fold or damage your number!

RULES 4.10|5.2|6.4 Illegal Equipment

Certain items are banned during the race – this includes MP3 players, mobile phones and personal video recording devices. Leave these outside transition.

RULE 5.2 Helmets

Helmets must be clipped before the bike is touched, and remain done up until the bike is racked after the cycle stage.



RULE 5.5 Drafting

Competitors must keep their distance from the cyclist in front of them, so as not to gain an advantage.

In standard distance and shorter events, the gap between the front wheel of the leading bike, to the front wheel of the following bike should be 10 metres – if overtaking a competitor, you have 20 seconds to pass through their draft zone.

In middle and long distance events, the gap is 12 metres and the time allowed to pass through is 25 seconds.

RULE 7.1 Transition

Competitors should only bring into transition what is needed – a small bag can remain but large, bulky boxes are to be taken out of transition whilst the race is live.
